

Global ageing and related healthcare challenges

28-29 May 2020

Fudan University, Shanghai, China

Official website: [here](#)

(Note: this website is for two meetings the Shanghai meeting and the Hong Kong meeting; but for this call only applies to the Shanghai meeting. For participants who want to attend the Hong Kong meeting, please contact Dr. Evandro F. Fang)

Address and Venue: With inside of the Medical Campus of Fudan University (138 Medical Road, 200032 Shanghai, China,; In Chinese (上海市医学院路 138 号). Meeting room information will be updated [here](#):

Abstract deadline: 6th Dec 2019

Free Registration: [here](#)

The Call of abstract and participation

Ageing is the greatest risk factor for many diseases, including cardiovascular diseases, diabetes, cancer, and neurodegeneration, especially Alzheimer's disease and Parkinson's disease, among others. The global average age is increasing dramatically because of improved healthcare system and changes in lifestyle. Accordingly, the ageing society brings formidable socio-economic challenges. In the past decades, our understanding of the mechanisms of ageing at molecular, cellular, individual, and societal levels has greatly expanded. This enables scientists to develop novel strategies to improve healthy ageing and to prevent or treat age-related diseases through lifestyle modifications, pharmacological interventions, and novel therapeutics. This conference will bring together leading ageing researchers working on molecular, cellular, individual, and societal levels of ageing, from around the world, including The University of Oslo, Copenhagen University, Uppsala University, Karolinska Institute, Fudan University, Peking University, Duke Kunshan University, The Chinese University of Hong Kong, The University of Hong Kong, National University of Singapore, among others.

The major aim of the two conferences is to foster communications, interactions, and collaborations among the ageing researchers, and to provide unique training opportunities to the undergraduate and graduate students, postdoc fellows, and early career ageing researchers. Our final goal is to explore new therapeutics and interventions to extend healthspan and lifespan in the elderly.

The event comprises two meetings, one in Fudan University, Shanghai (28-29 May 2020), and the other in The Chinese University of Hong Kong, Hong Kong (01-03 June 2020).

Organizing Committee

Dr. Evandro Fei Fang, MBBS, Ph.D. (Chair) Group Leader, University of Oslo (UiO) and Akershus University Hospital, Norway The Norwegian Centre on Healthy Ageing, Norway

Prof. W. Y. Chan, Ph.D. Pro-Vice-Chancellor, The Chinese University of Hong Kong, Email: chanwy@cuhk.edu.hk. Web, [here](#)

Prof. Na HE, Dean, School of Public Health, Fudan University, China Tel: 86-21-54237625; Email: nhe@fudan.edu.cn. Web, [here](#)

Prof. Linda Hildegard Bergersen, Ph.D. Professor of Physiology, Vice-Dean of Research, Faculty of Dentistry, UiO, Norway Professor Neurobiology of Ageing, CEHA, University of Copenhagen, Denmark Mobile: +47 97032049; Email: l.h.bergersen@odont.uio.no. Web, [here](#)

Prof. Lene Juel Rasmussen Acting Director, Centre on Healthy Ageing, University of Copenhagen, Denmark Tel: (+45) 35 32 67 17; Email: lenera@sund.ku.dk. Web, [here](#)

Prof. Magnar Bjørås Cancer Research and Molecular Medicine, Norwegian University of Science and Technology (NTNU), Norway Tel: +47 95081497; Email: magnar.bjoras@ntnu.no. Web, [here](#)

Prof. Shenglan Tang Director, Global Health Research Center, Duke Kunshan University, China Tel: +1 919-519-0802; Email: Shenglan.tang@duke.edu. Web, [here](#)

Abstract

For abstract submission, please use the provided template (download [here](#)), then send to Dr. Evandro F. Fang (e.f.fang@medisin.uio.no) by 6th Dec 2019. Submissions after the deadline will not be considered, but are still welcome to attend this meeting after registration. For participants with abstract (poster), registrations are mandatory. Flights and hotels will be covered by the participants themselves.

Oral talk

Excellent abstracts will be selected for oral talks by the organizing committee. List for oral talks will be release by 20 Nov 2019. For participants of oral talks, registrations are mandatory (so please register at the time you submit your abstract). Flights and hotels will be covered by the organizers.

Invited Speakers

For invited speakers by the organizers, registrations are not necessary. Flights and hotels will be covered by the organizers.

Free Registration

Free Registration (open October 2019): [here](#).

Update of the programme

Official website [here](#).

Note: this website is for two meetings the Shanghai meeting and the Hong Kong meeting; but for this call only applies to the Shanghai meeting.

Questions: to Dr. Evandro F. Fang (e.f.fang@medisin.uio.no)

The Hong Kong meeting

Invitation only.
